

ACQUIP SERVICES IS THE INDUSTRY LEADER IN FIELD, WITH SPECIALIZED ENGINEERS IN LASER, OPTICAL, MACHINE TRAIN, MOTOR, AND SHAFT ALIGNMENT.

In ACQUIP Services we have built our professional reputation on laser alignment, optical alignment, machine train alignment, motor alignment and shaft alignment. Our Engineers use state-of-art alignment equipment and they have had extensive laser alignment training. Utilizing SphereAction™ our proprietary Laser Alignment Approach, they produce a work product that is second to none.

Some of the ACQUIP SphereAction™ Services we provide are:

- Gas Turbine Internal Laser Alignment
- Steam Turbine Internal Laser Alignment
- Theoretical Tops On Express Alignment
- Dynamic Movement / Thermal Growth Analysis
- Machine Train Alignment
- Faro Ion Laser Tracker Internal Alignment

There is no project that is too large or too small. We use the latest technology available and adapt it to uncommon problem.

- Energy Capital is ready to provide ACQUIP SphereAction™ Services
- Energy Capital can provide rotating equipment alignment services for the power generation, oil, gas and petrochemical industries
- Energy Capital is the appointed representative for Acquip Services
